*Innovation. Technology. Stability. Alignment. It's what we bring to the table.*

Multi-award-winning FLAT® AUTO-ADJUST Table Bases are always on, always working, and always stable—regardless of the situation. Our revolutionary base technology automatically adjusts to the surface below then locks into place. This "World's First" patented technology also allows the user to align multiple table tops together, eliminating problematic table ridges for good.

With over 40 models and designs to suit virtually any environment, application, height, or table top size, we'll have the perfect table solution for you.

## AUTOMATIC STABILISATION
FLAT Table Bases stabilise instantly. When the table moves, the feet sense the change and re-adjust automatically.

## ALIGNMENT
FLAT Table Bases help users align adjoining table tops by simply lifting or tilting the table top edges to the required levels.

## DESIGN INTEGRATION
Our technology and table bases are designed to integrate perfectly to ensure maximum performance.

## ENGINEERED DURABILITY
All FLAT products are manufactured and quality-assured to the highest standards, resulting in exceptional products that you can depend on.

## OUTPERFORMS
Our table bases are capable of adapting to a far greater variety of surface inconsistencies than traditional methods of stabilising tables and deliver superior stability on uneven terrain.

## ACCESSIBILITY
A number of our bases provide enhanced accessibility for disabled users and can help operators comply with local legislations.*

*Local disability legislation differs in different regions. Contact us to discuss which product configurations can make you compliant.
